

Break-out Room – Working Group ICT(4E)

11u15 – 11u45

Proposal & discussion on working group efforts and interpretation for 2021

Expert presentation / Practical example

Good Practices and Tools for ICT in Education

Educaid.be Workshop – 6 December 2018

The aim of this half-day workshop, organised by the ICT for Education working group of Educaid.be, will be to exchange on innovative education initiatives and tools with a digital component, implemented in a challenging environment with limited resources and high demands.

The workshop will be divided in a short presentation part, followed by exchanges in small groups on best-practices and brainstorming on digital practices in education, to discuss how existing tools can be used and improved while striving for inclusion.

PROGRAMME:

9:30-9:40 Introduction

9:40-10:40 Presentation of 9 good practices and tools (five-minute pitches)

- Blockchain for education (VIA Don Bosco)
- ImpalaGoSTEM (ImpalaBridge)
- KUBO and the toolkit it uses to overcome frequent barriers in ICT4E (KUBO/Afrodidact)
- Providing 240 schools with e-learning and Smart ICT classrooms in Ghana: challenges and lessons learned (Televic Education)
- Resilience in Schools in East Jerusalem through STEAM (Enabel)
- Support to the implementation of the Skilling Uganda strategy (Enabel)
- Teacher Training Education (TTE) in Uganda (Enabel)
- Technology and media literacy as a leverage for transversal competences (Comundos)
- Transforming continuous professional development of school leaders and teachers in basic education in Rwanda through e-Monitoring (VVOB)

10:40-11:00 Coffee break

11:00-12:00 Round 1: Three parallel discussion tables

12:00-13:00 Round 2: Three parallel discussion tables

13:00-14:00 Sandwich lunch

VENUE : APEFE (WBI), Place Sainctelette 2, 1080 Brussels

Participation is free of charge, but registration is required by 20/11, via the Educaid.be website

DIGITAL FOR EDUCATION (D4E)

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all in a digital era

Focus for 2021

Practical & tailored support for members

Dual approach in member meetings:

- 1) Input sessions where we discuss problems and challenges that members struggle with
Input will be gathered in advance to allow for well prepared meetings
Input can also come from colleagues in partner countries
- 2) Expert presentations based on member needs
Collaborative working group sessions where experts explain and discuss potential solutions for member problems and challenges

Alternating sessions during the year

Practical Example

Jan Kennis, Enabel project coordinator & D4D expert

Feedback

What do you think of this approach?

Suggestions for alterations or alternatives?

Interested to join the working group ICT?

Willing to share your expertise?

Thank you for joining!

We'll return to the plenary session now.
