

 yvob
education for development

About VVOB in Ecuador

VVOB – *education for development* is an international organization created in 1982 in Belgium.

skilling for
sustainable futures

effective school
leadership

- Quality of education in nine countries in Africa, Asia and South America
- In direct collaboration with governments and strategic allies
- Strengthening professional development of school leaders and teachers.

gender-transformative
pedagogy

Our work in Ecuador for the past 12 years has focused on

Secondary Education
Technical and Vocational Education and
Training

Ministerio de Educación

Partners:

Productive technical education in Ecuador

- Agriculture: a cornerstone for the Ecuadorian economy in 2023
 - Increase in GDP: approx. 9,1% in the productive industries:
 - Aquaculture and Fishing (6,4 %)
 - Cattleship and Agriculture (2,7%)
- Around 28% of young workers between 18 and 29 years old are actively working in the agricultural sector (ILO, 2020).
- TVET schools host approx. 402.309 students enrolled in technical education by 2022 (Ministry of Education, 2022)
- Opportunities for TVET students in the productive sector:
 - Self-employment and agro-entrepreneurship
 - Higher education
 - Job market
- Threats for TVET students in the productive sector:
 - Migration
 - Aging in rural populations

VAMOS Programme (2022-2026)

Building *innovative and linked schools*

(IE I+V)

Objectives:

- Strengthening capacity-development in school leaders and teachers in productive TVET schools
- Increasing motivation and Access to opportunities in TVET students
