

Scaling **AI Tutoring** for **Quality Learning** in Africa.

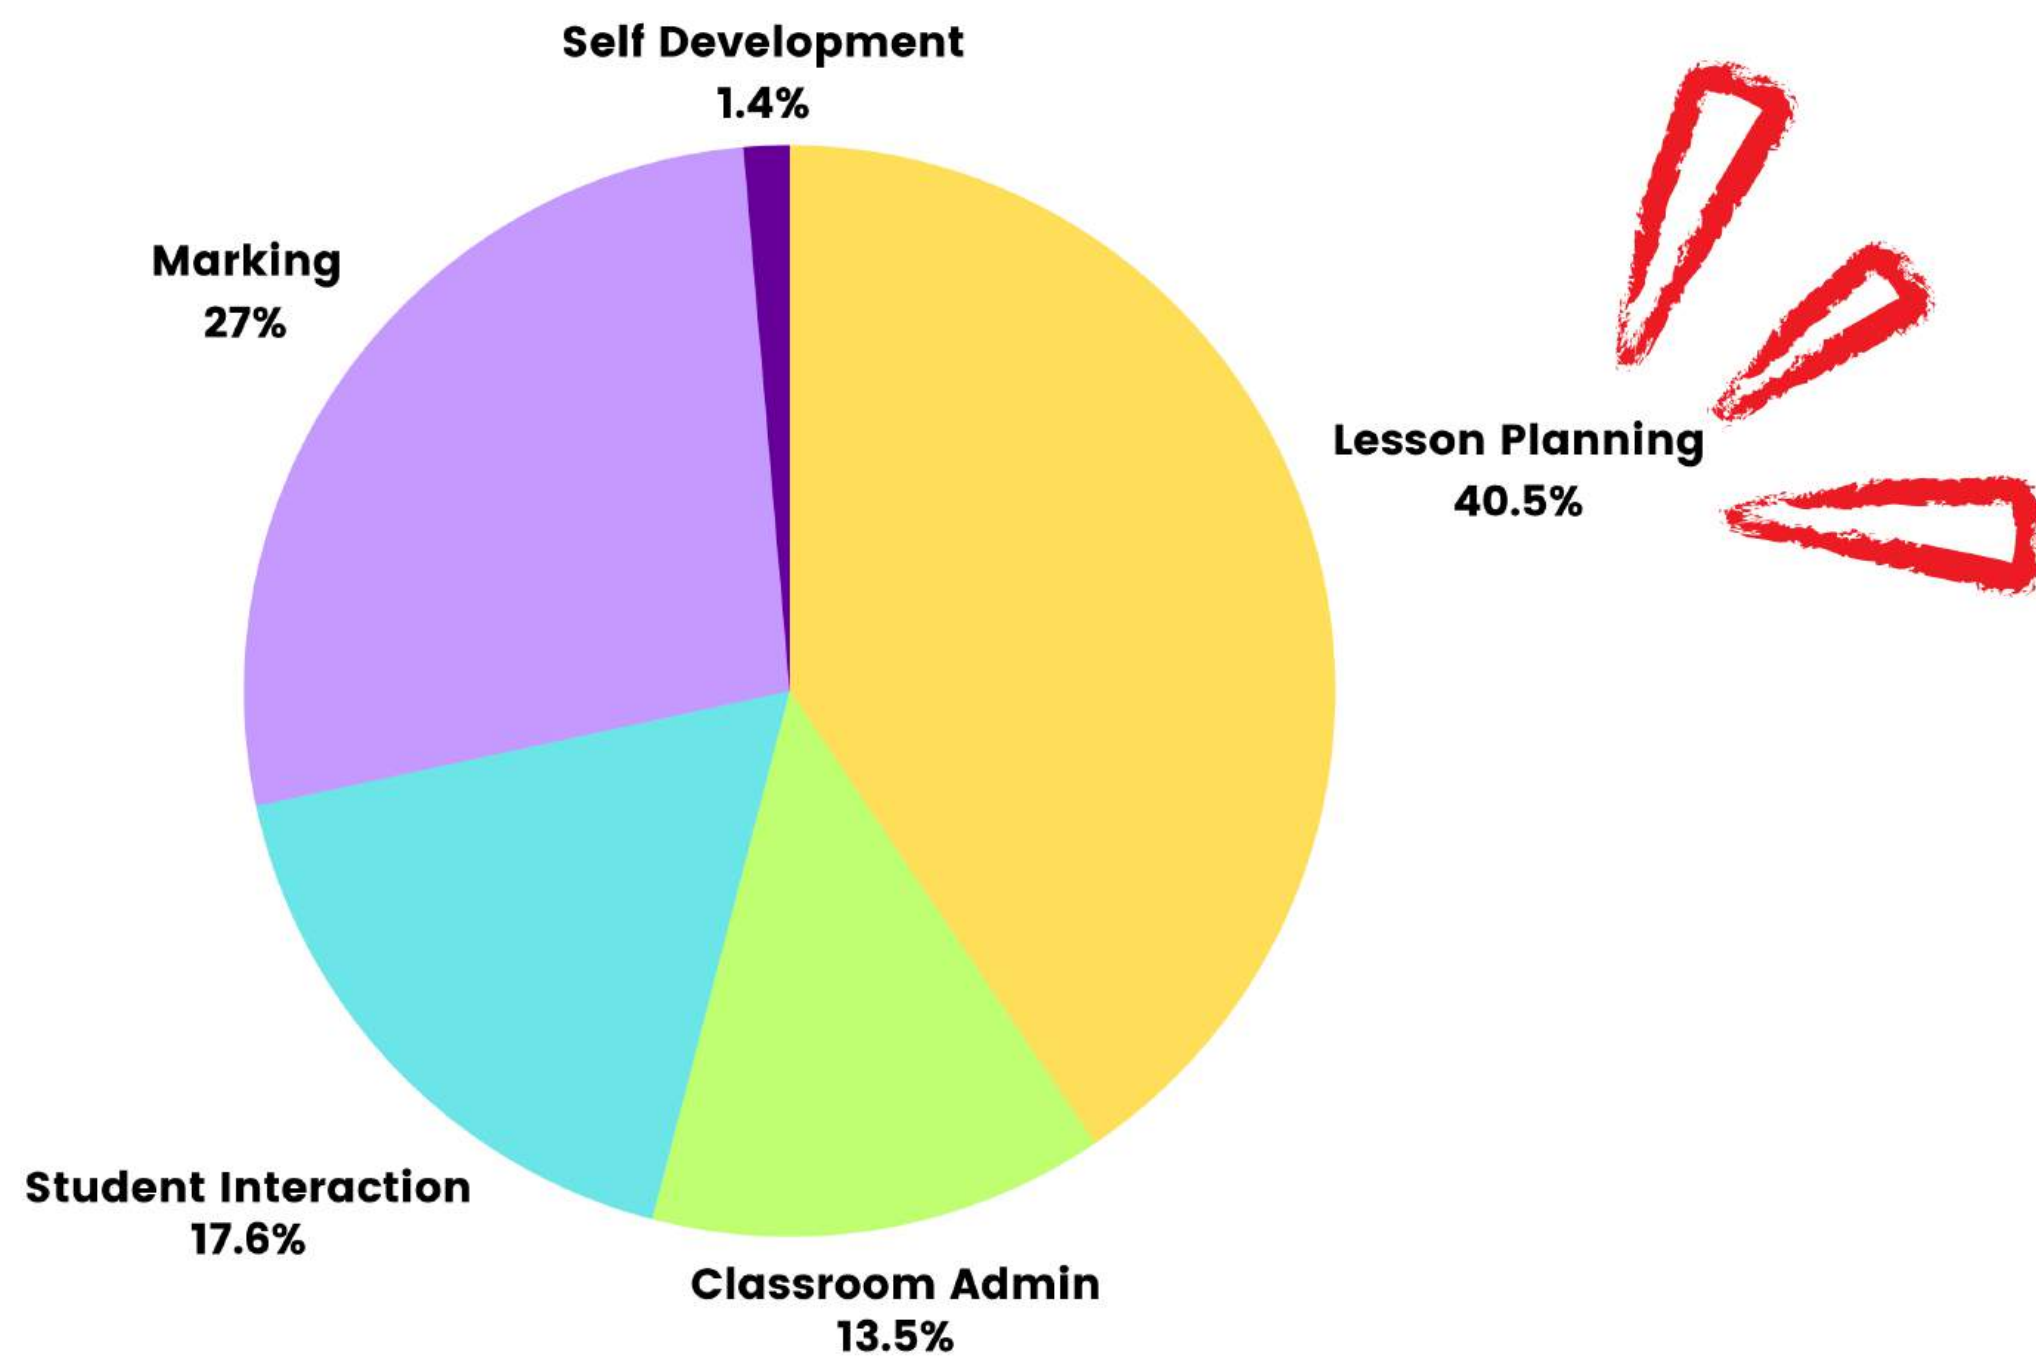

<https://kytabu.africa>

This is Jane

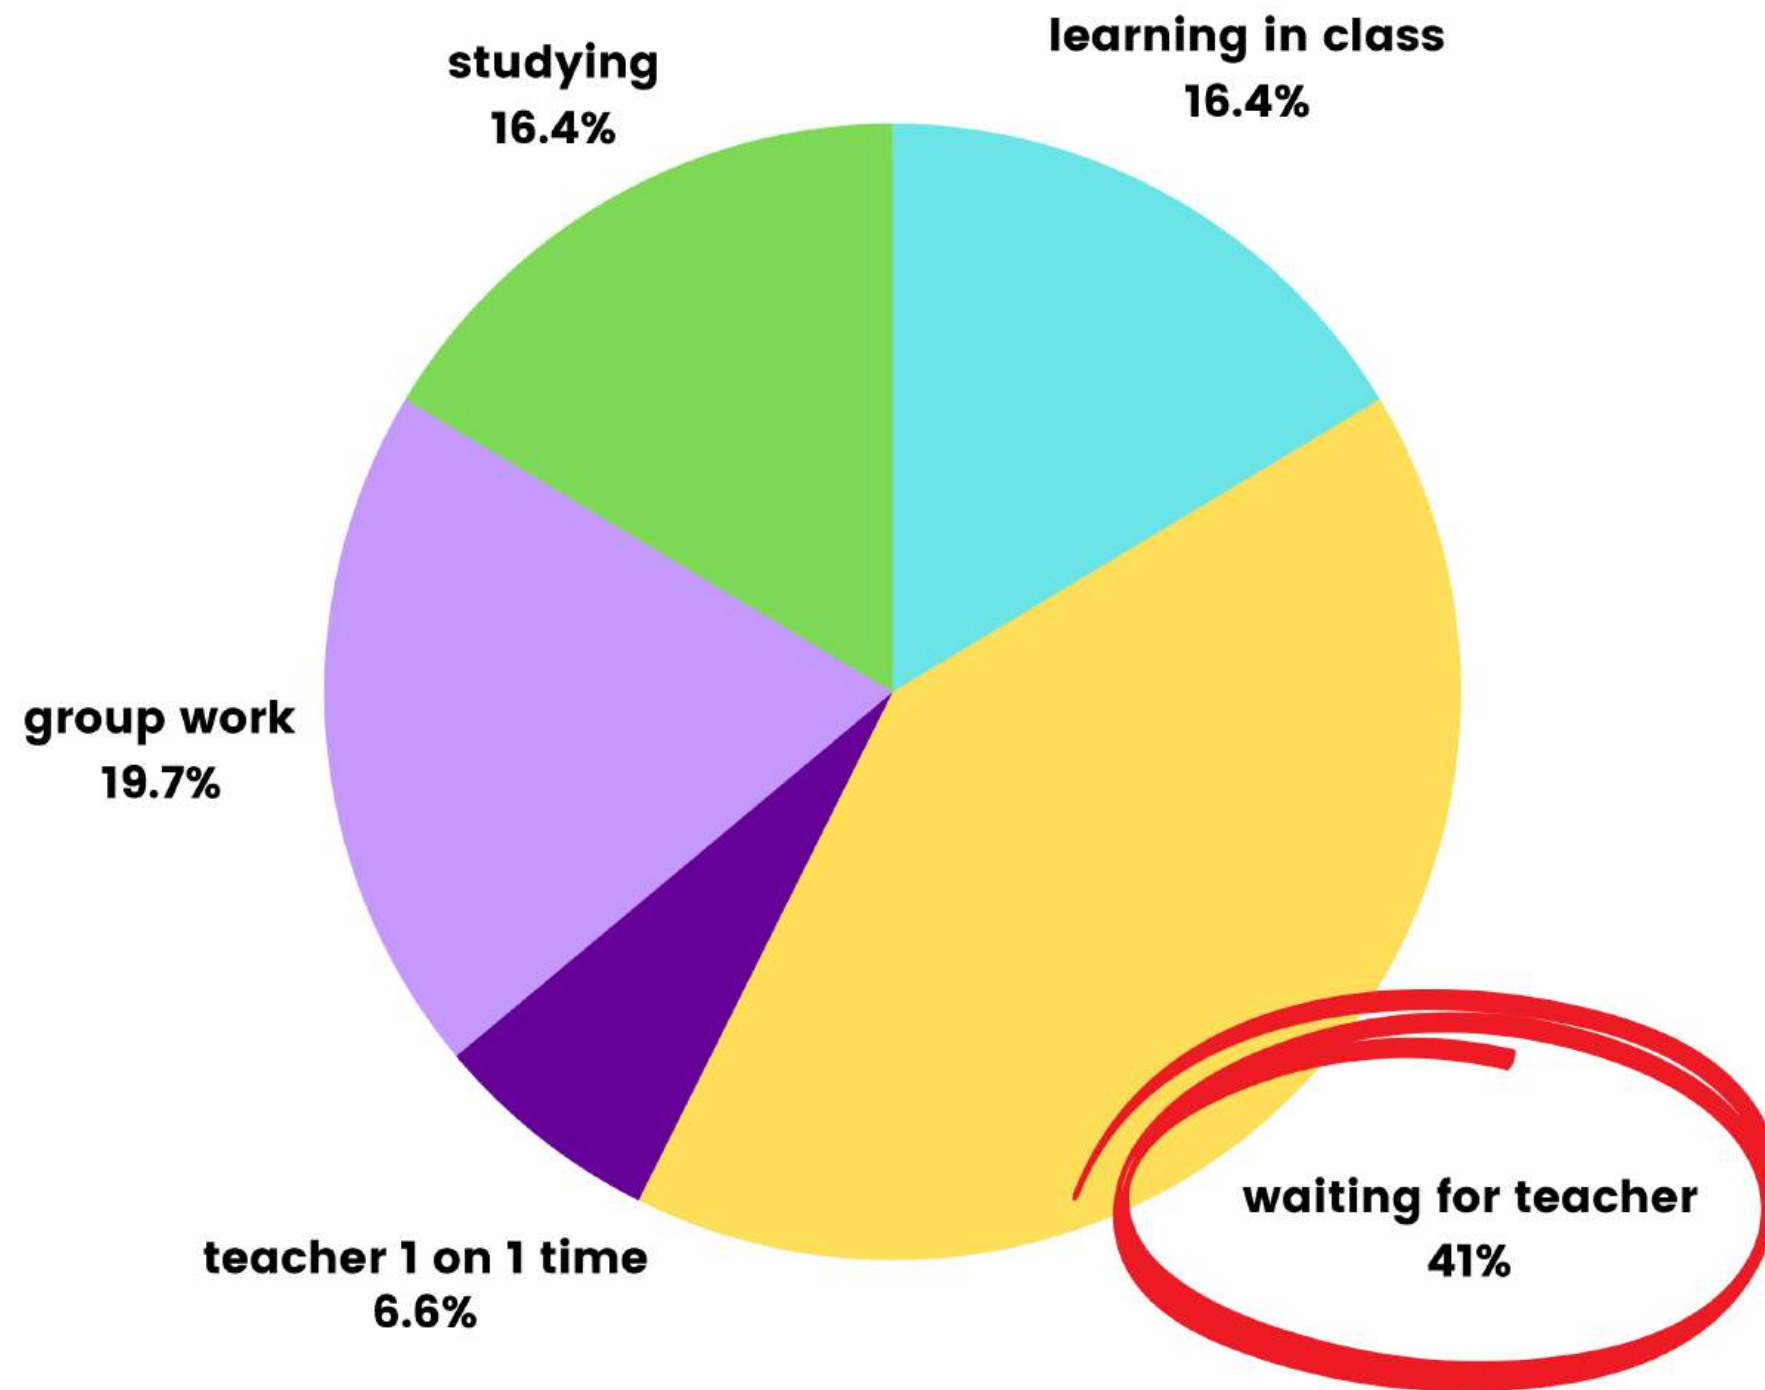

This is Julius

This was Jane's daily life as a teacher

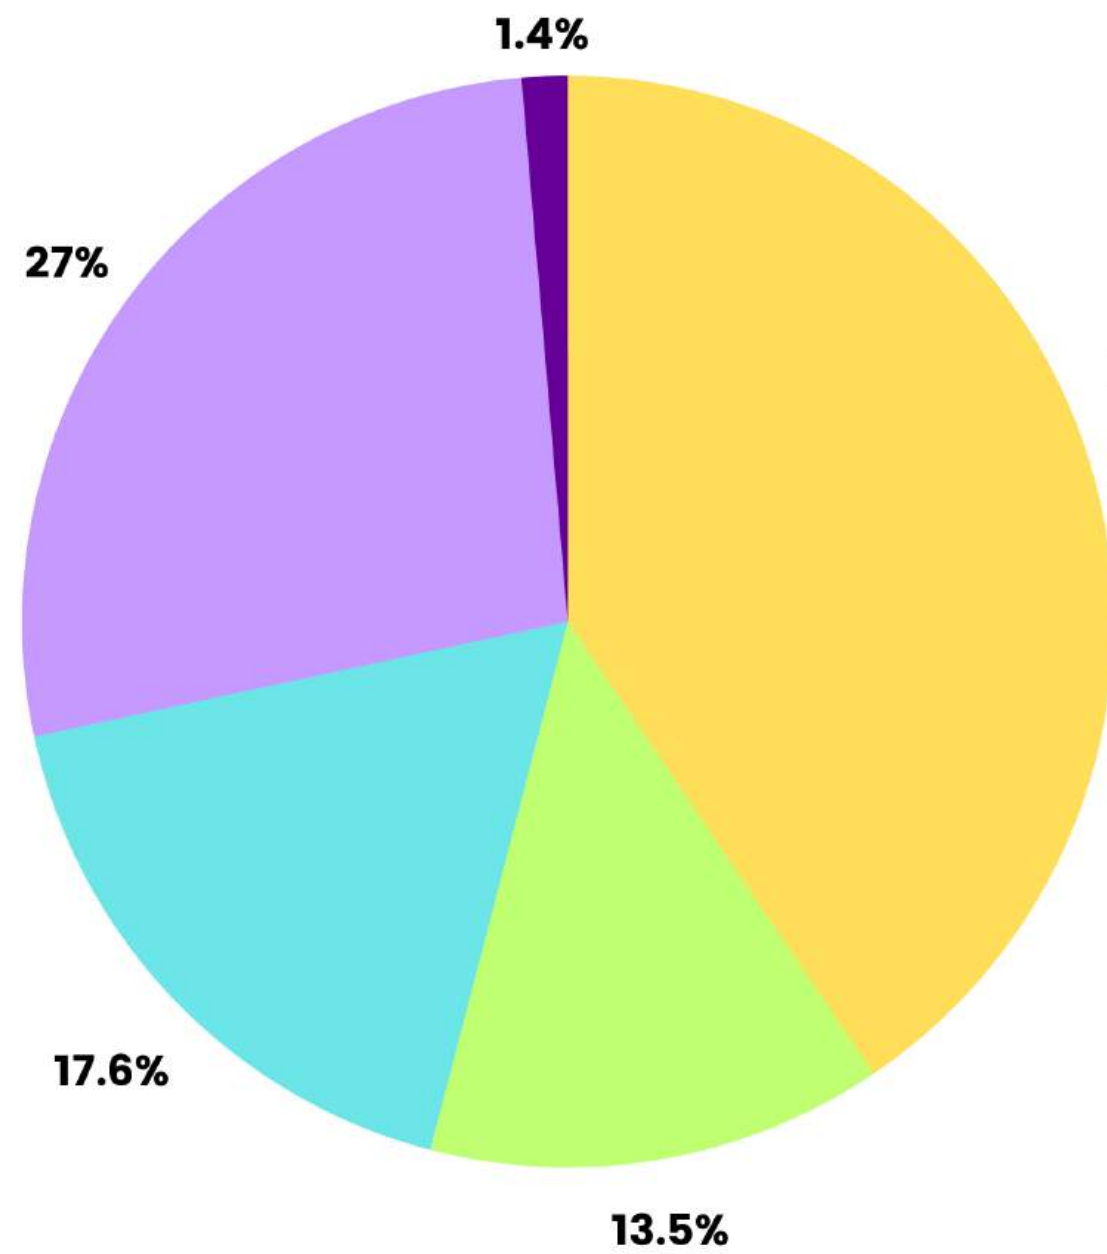

She spent 40% of her day creating lesson plans.

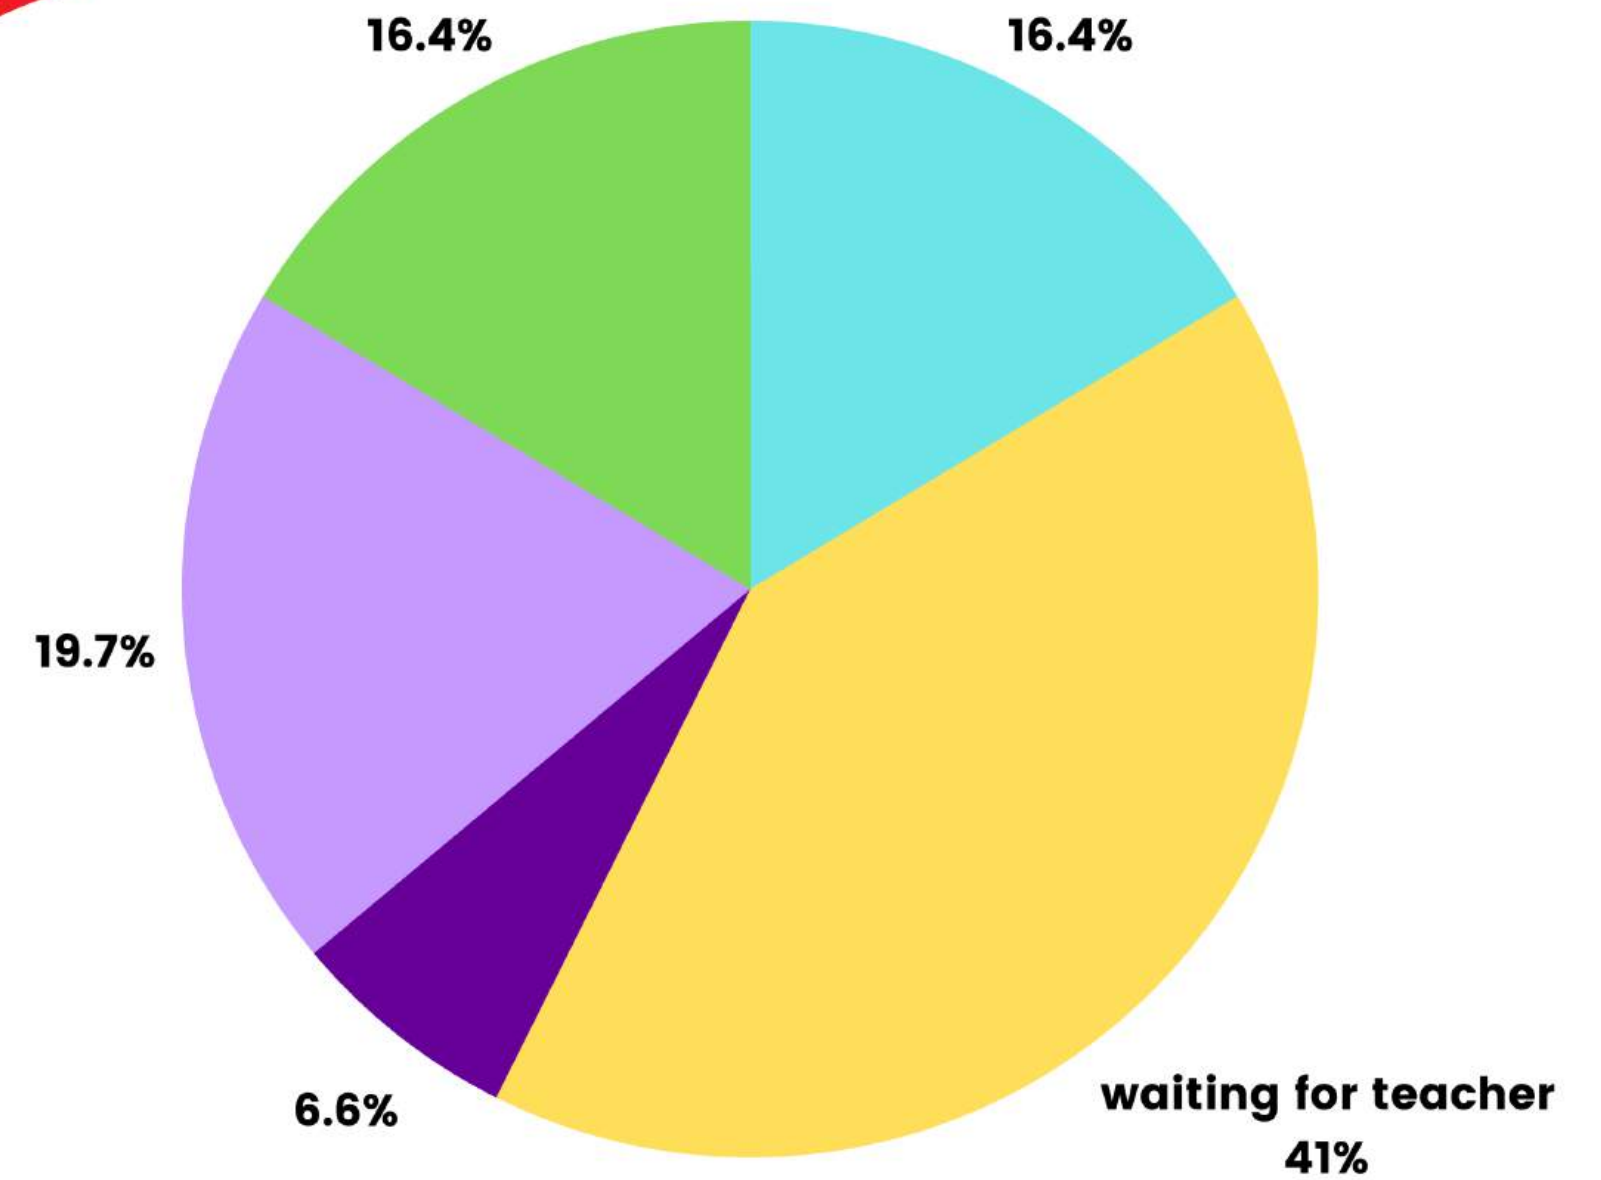

This was Julius's daily life as a student.

He spent 41% of his class day waiting to talk to his teacher.

THE PROBLEM

Lesson Planning
40.5%

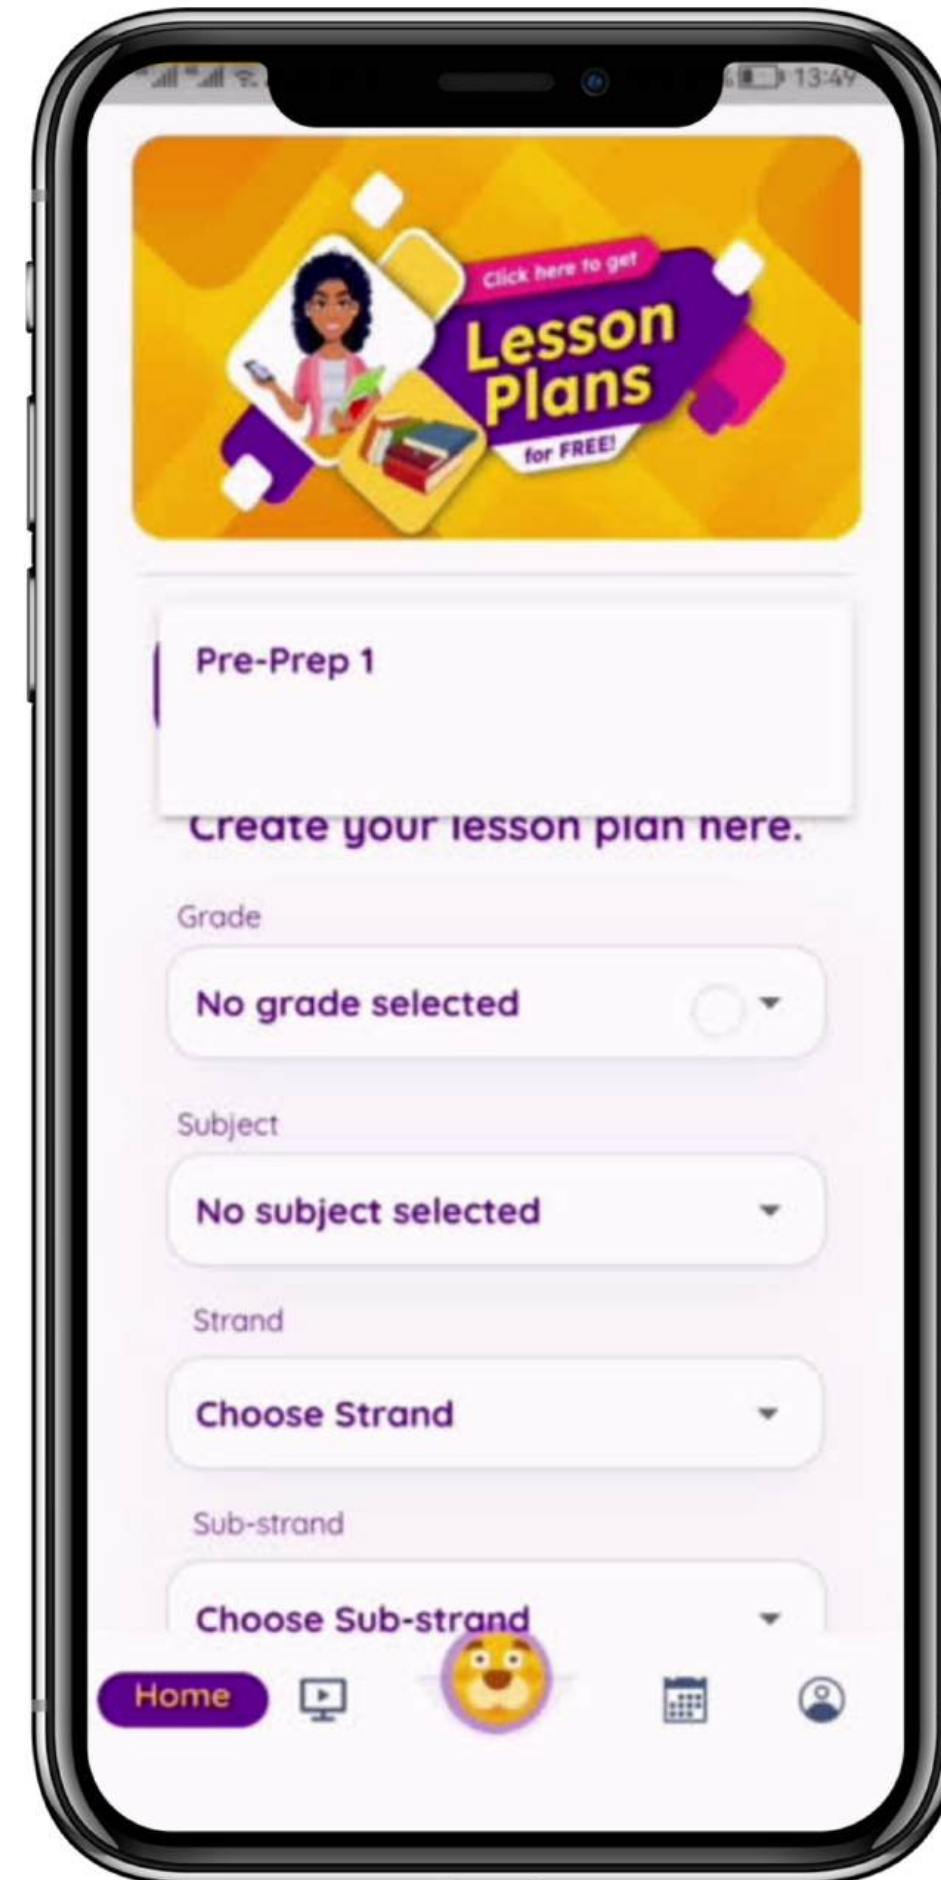

THE SOLUTION

An AI Lesson Plan creator

HODARI – (Brave)

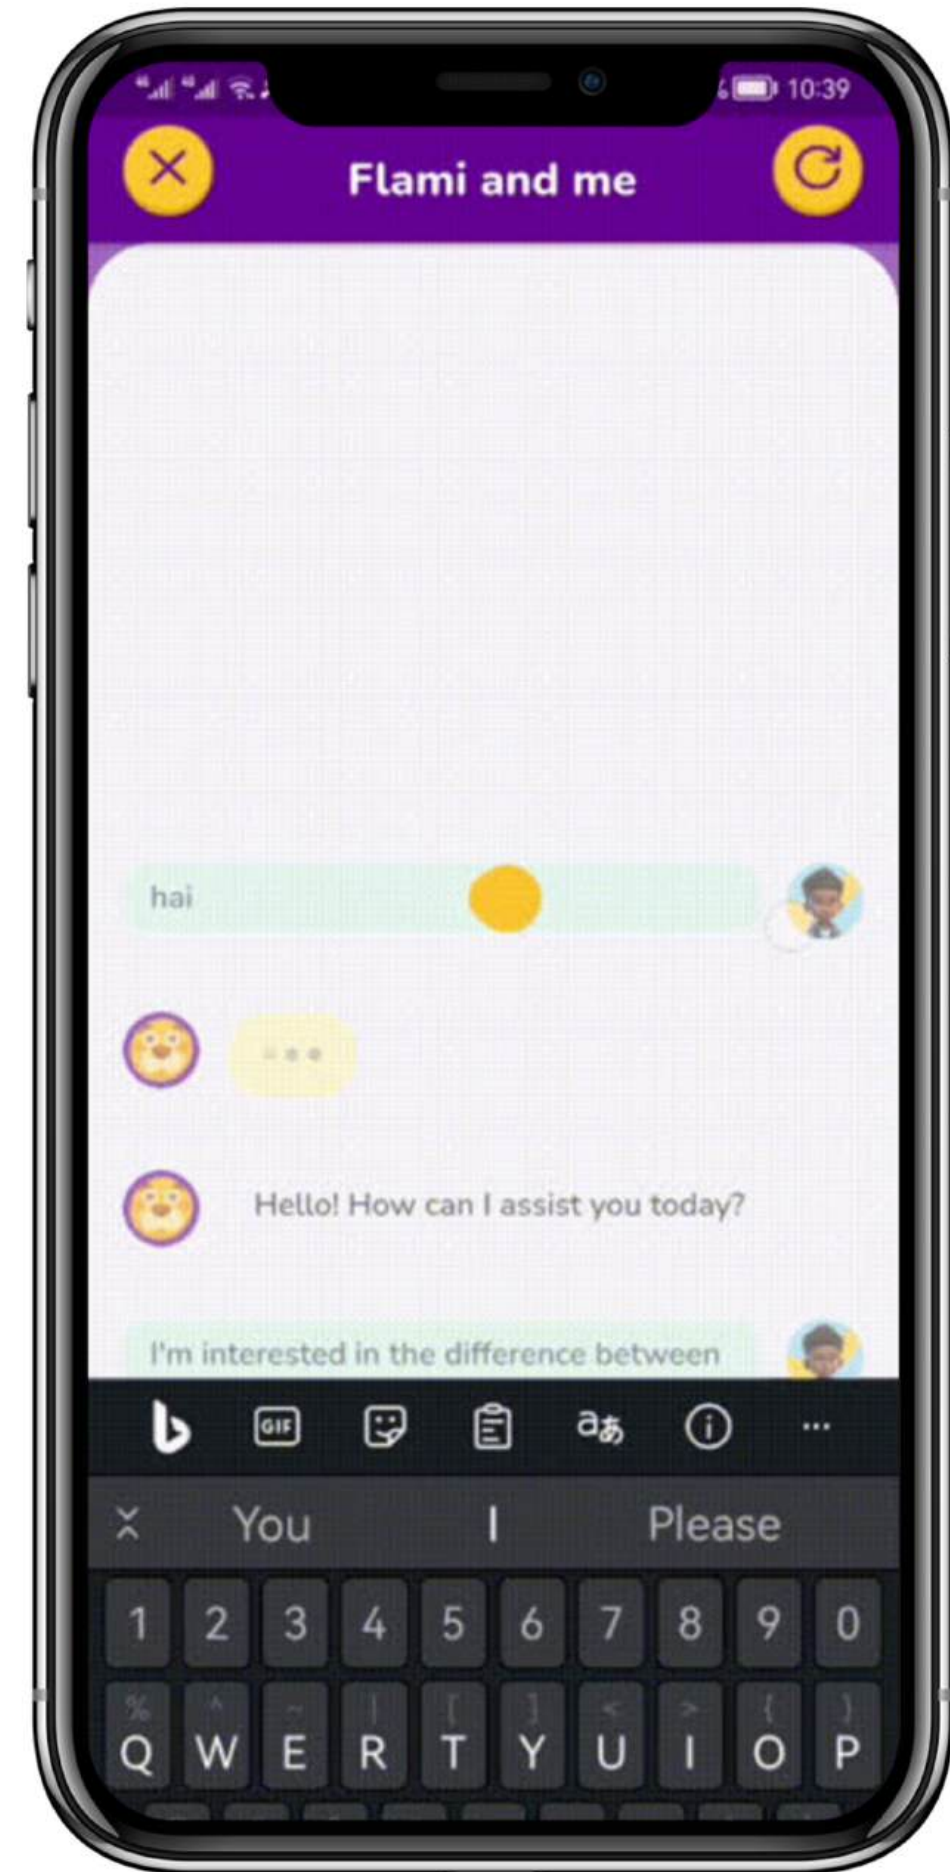

A teacher's app that used ChatGPT3.5 to create lesson plans aligned to the Kenyan education curriculum – in 2 minutes.

An AI Tutor + self paced learning

Somanasi - (Learn with us)

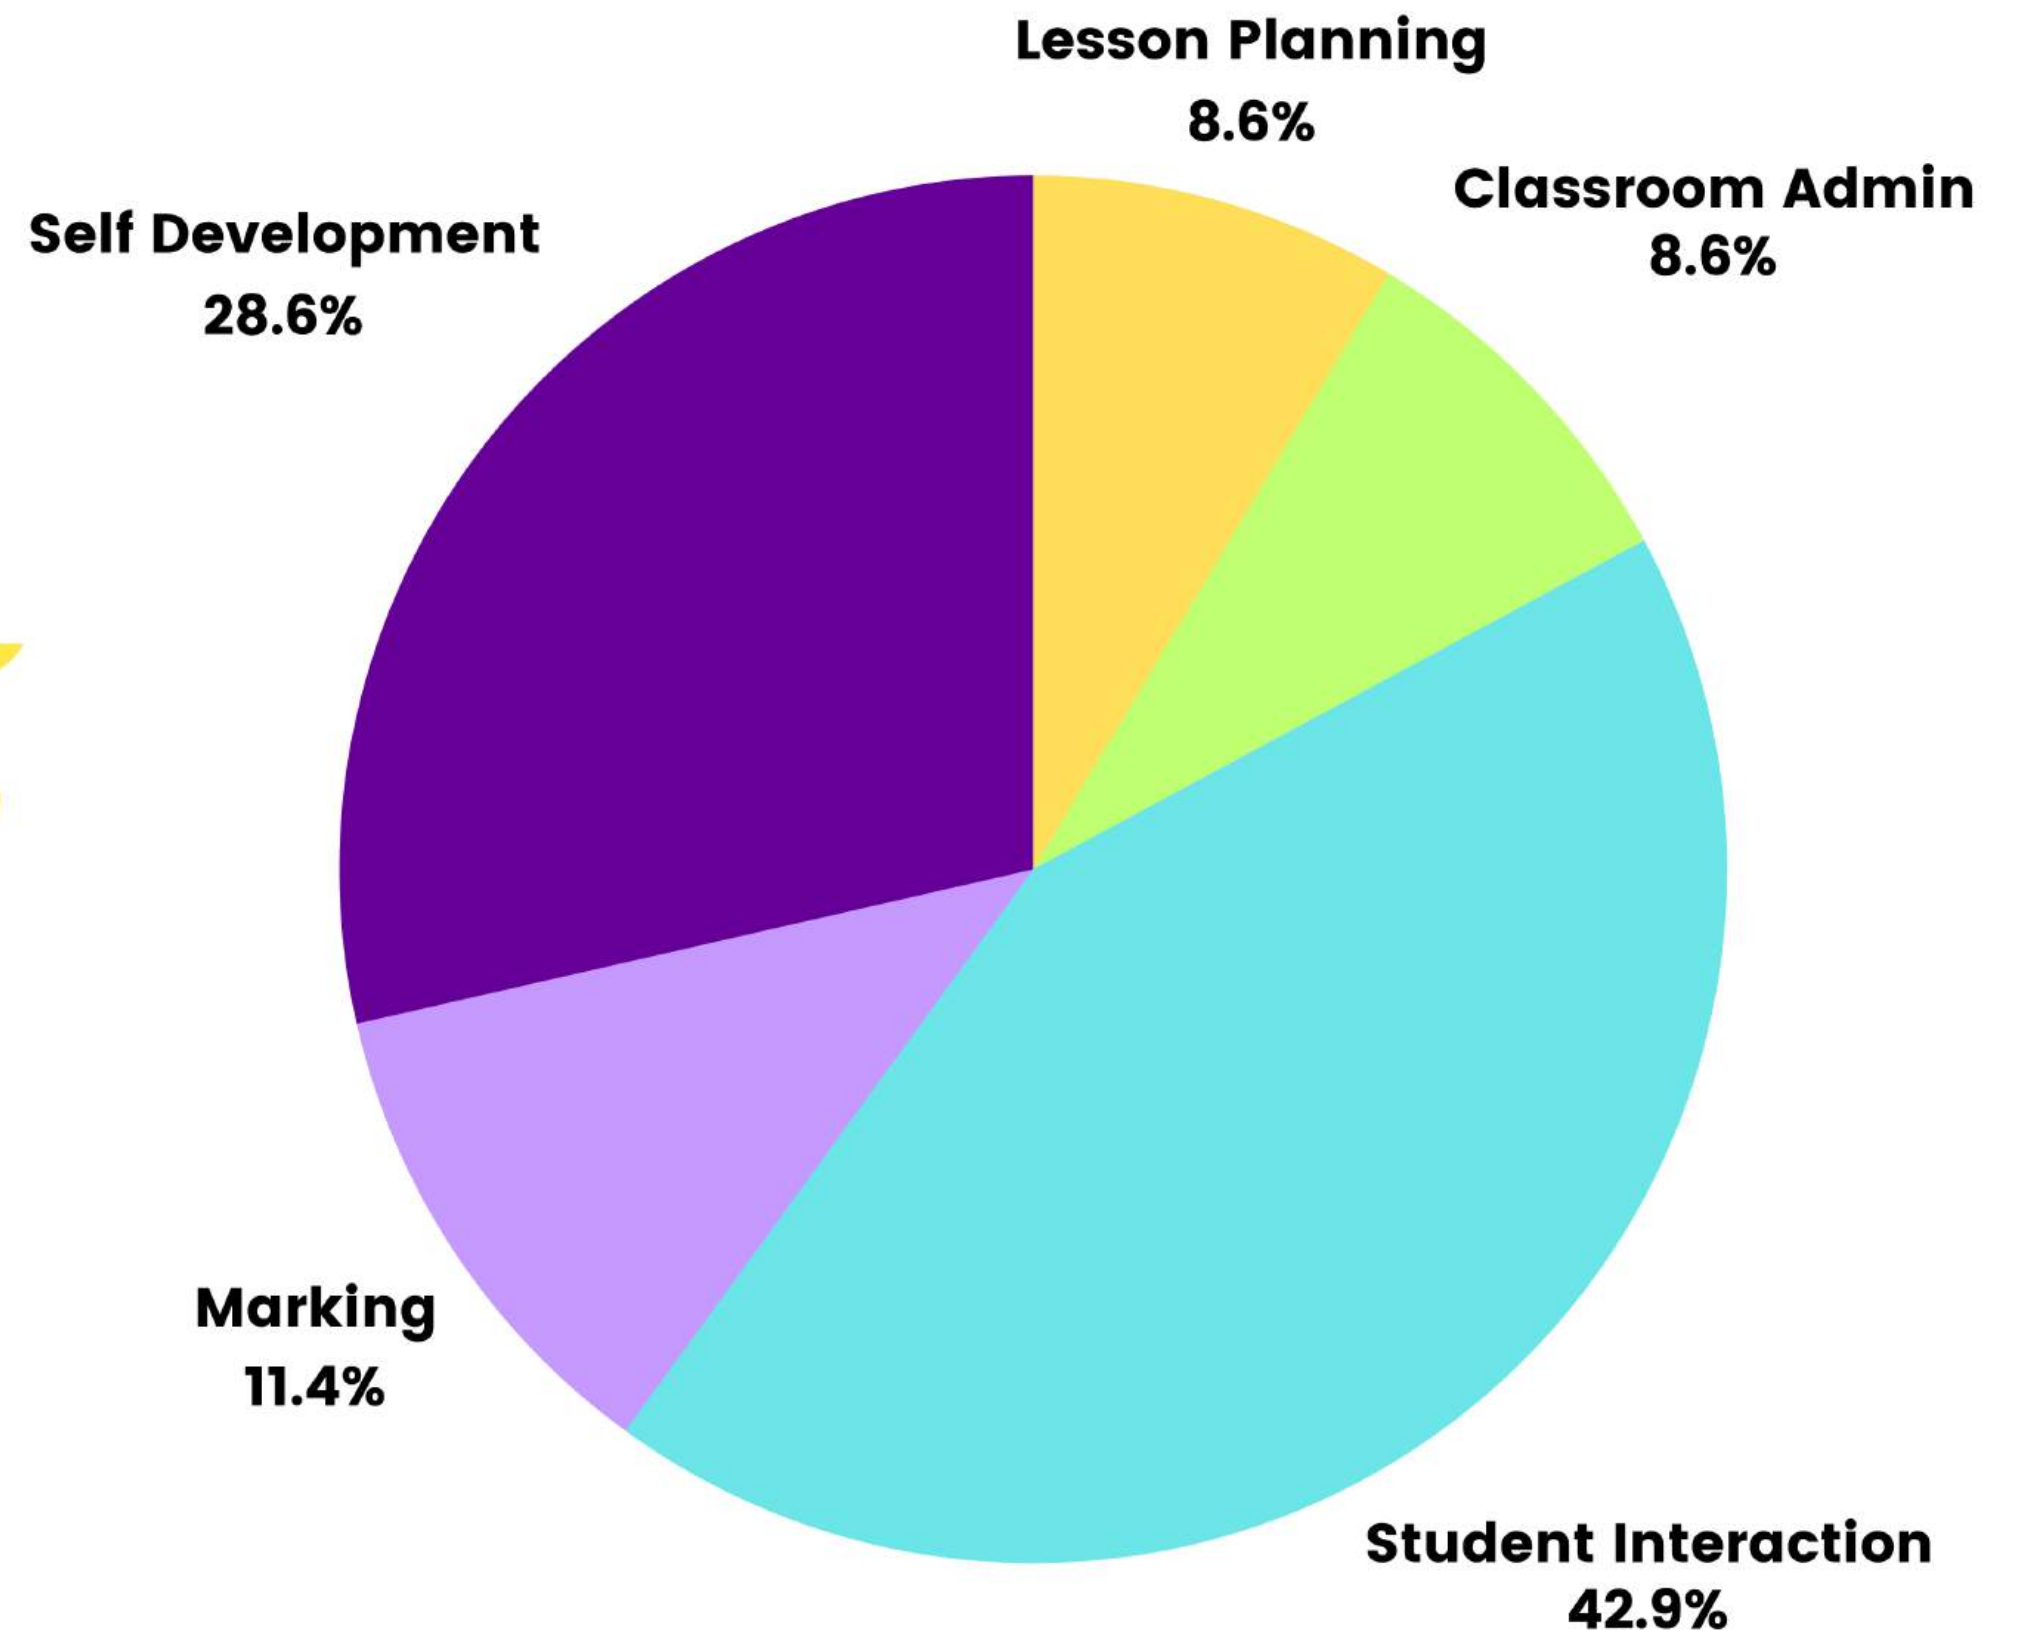

A tutor chat bot for students that used ChatGPT 3.5 to tutor students with content aligned to the Kenyan education curriculum

THE OUTCOME

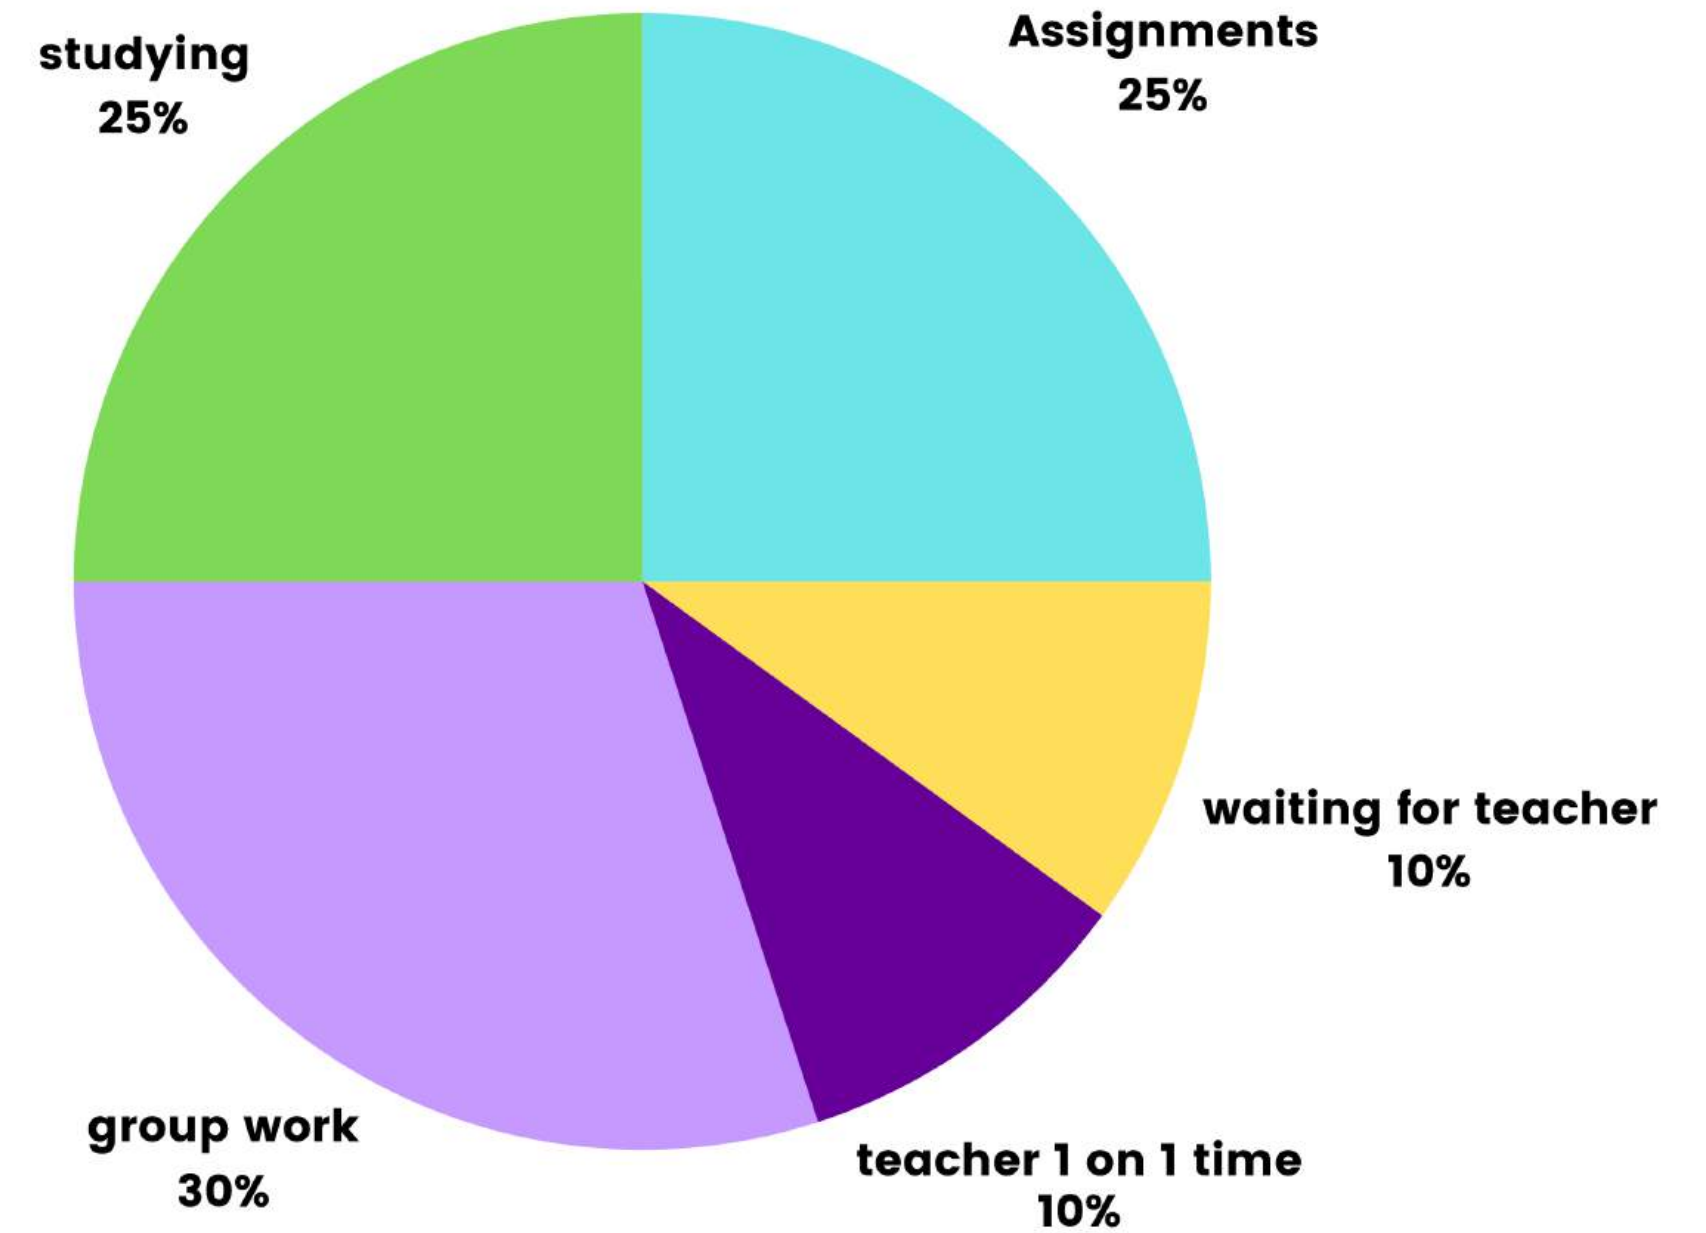

Jane's day today

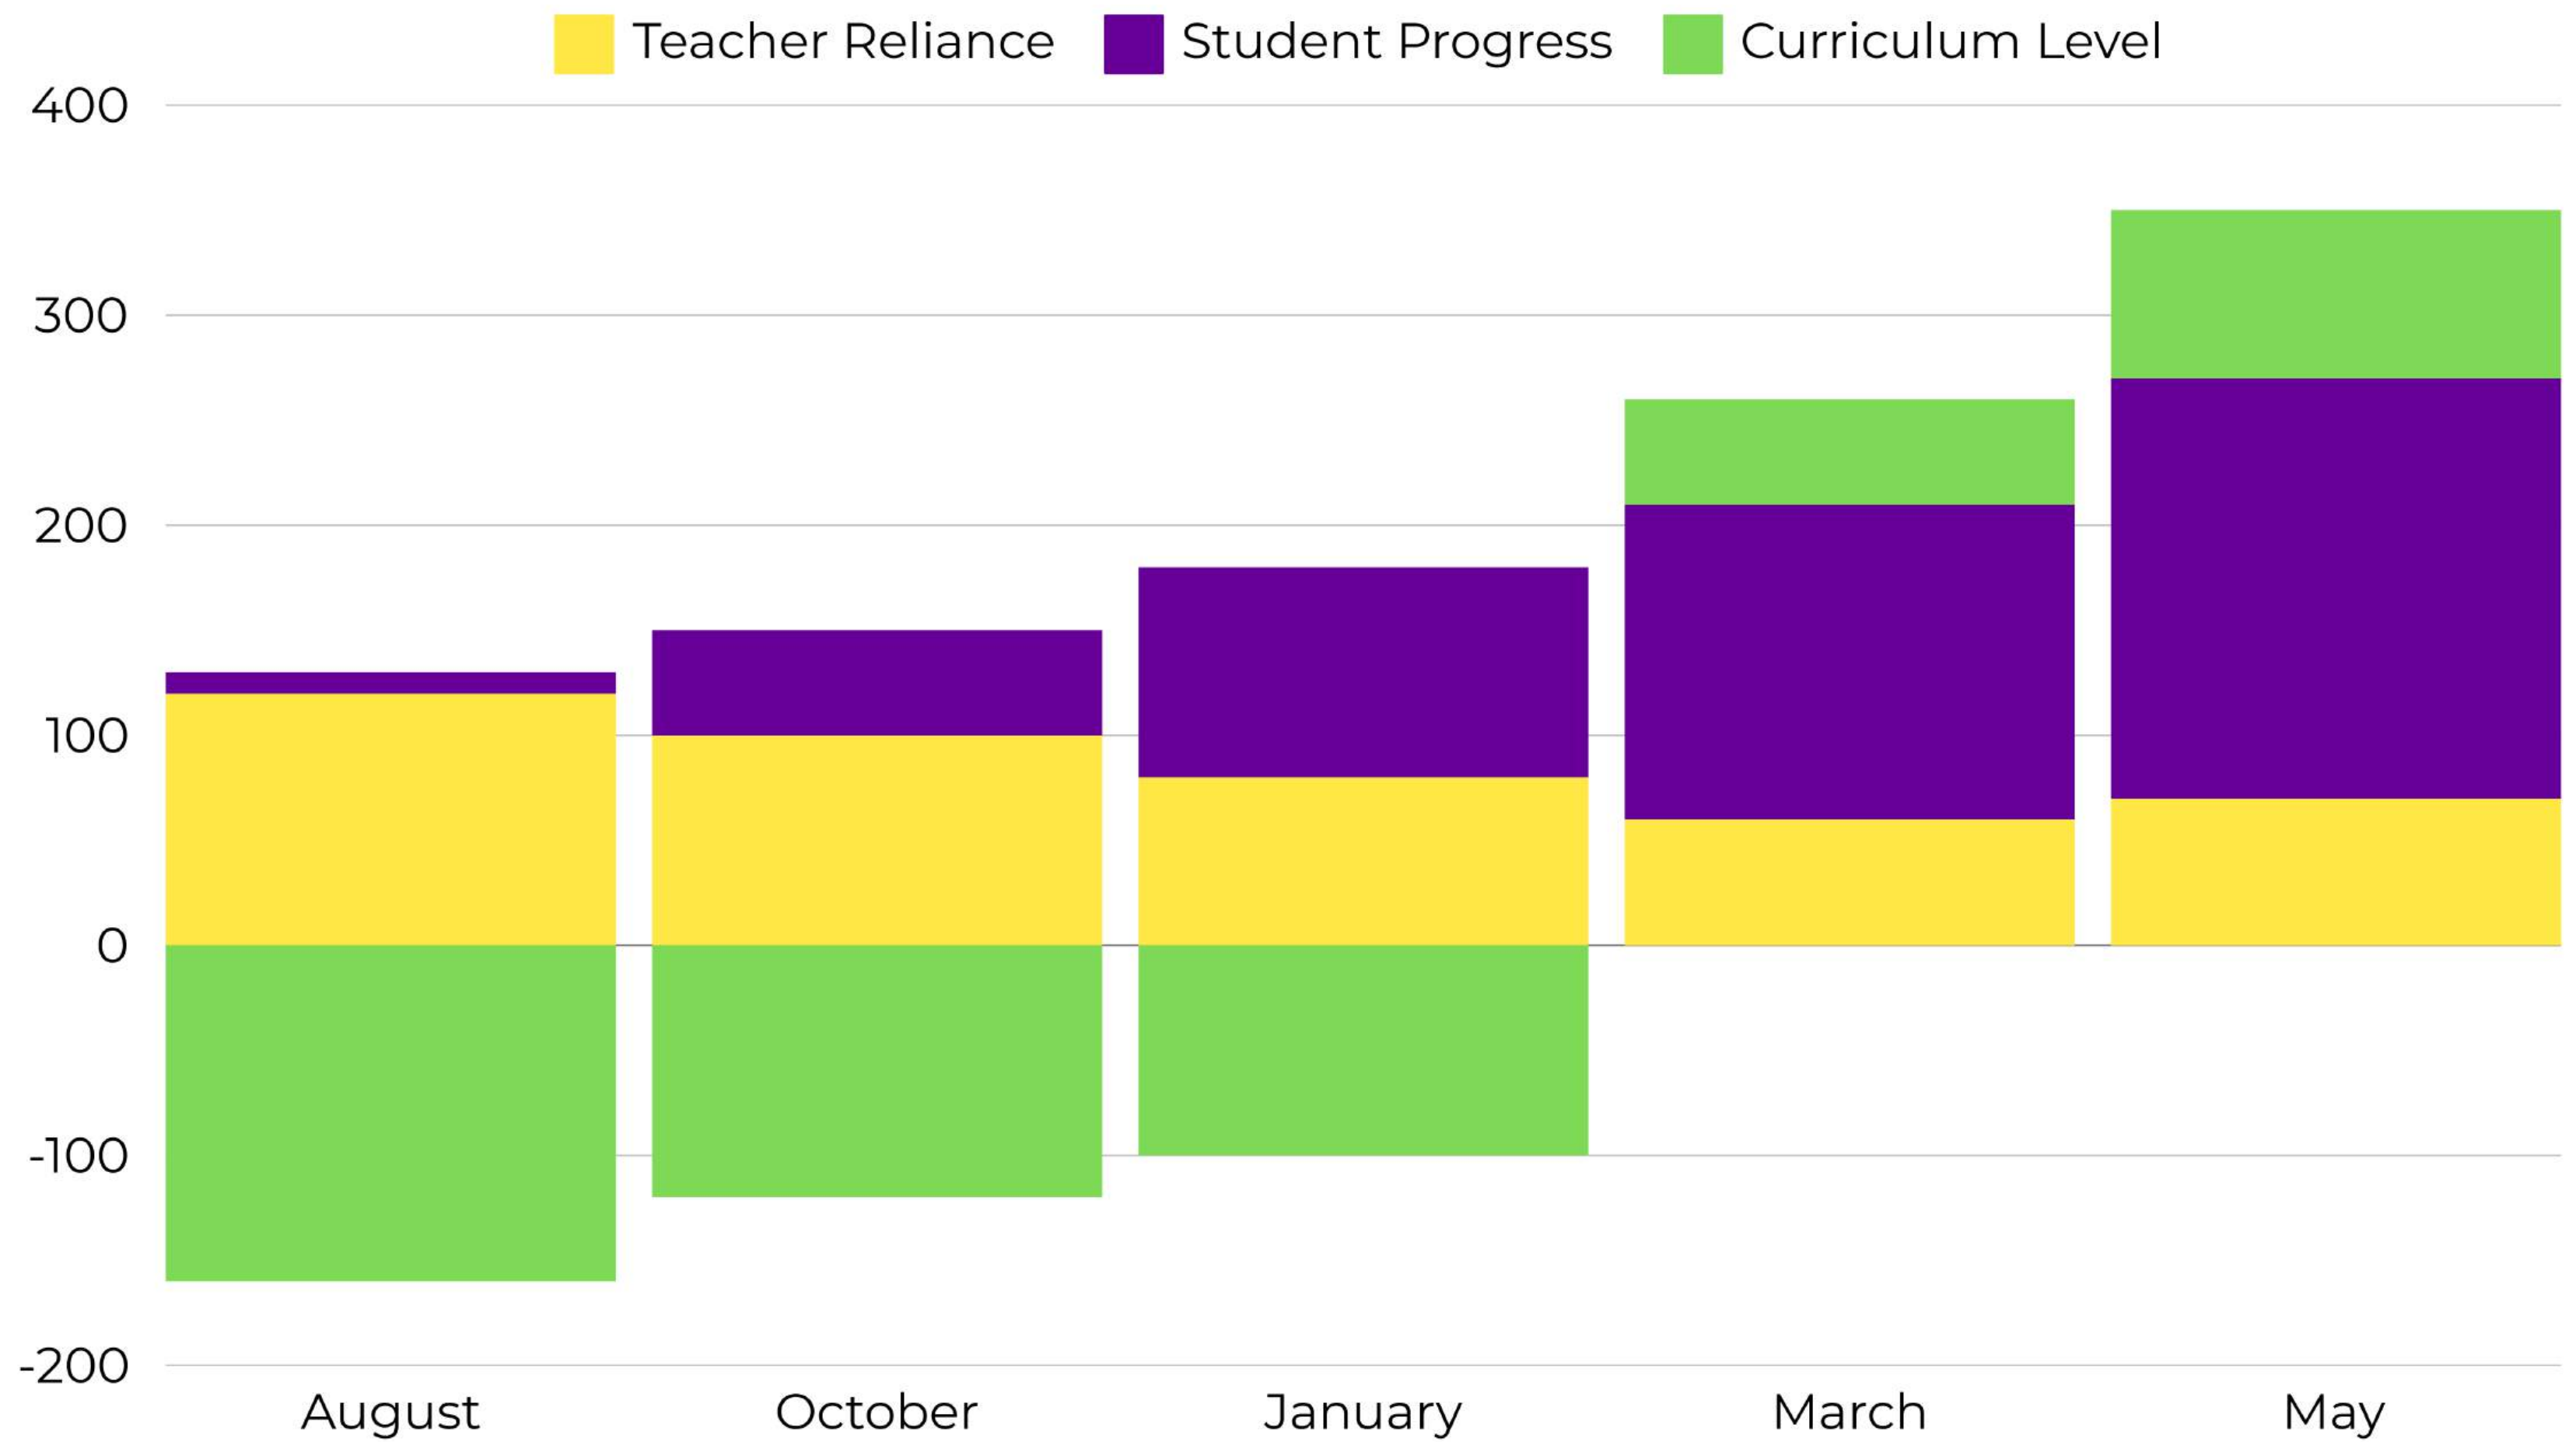

She has 42% more time with students.

Julius's day today

He waits for his teacher 10% of the time and his personal tutor does most of the work.
