Technical and
administrative

Our activities

Research – The 3 P's

- Pathogens
- Patients
- Populations

**300 +
publications
per year**

Our activities

Medical services

- Travel health
- Reference centre for HIV/AIDS
- Supranational reference laboratories

35.000+

consultations/year

Pre-travel 50%

Post-travel, pediatrics 20%

HIV 17%

Sexually Transmitted Infections 7%

Helpcenter 6%

36.000+

vaccinations / year

Top 5:

Yellow fever

Hepatitis A

Polio

Typhoid

Tetanus + diphteria

Our activities

Development cooperation

Empowerment of
partner institutes:

- Capacity building
- Equal partnership

LATIN AMERICA

- Vietnam ●●

- Institutional capacity building supported by Belgian Development Cooperation
- Institutional capacity building supported by Flanders
- Alliance of education and exchange

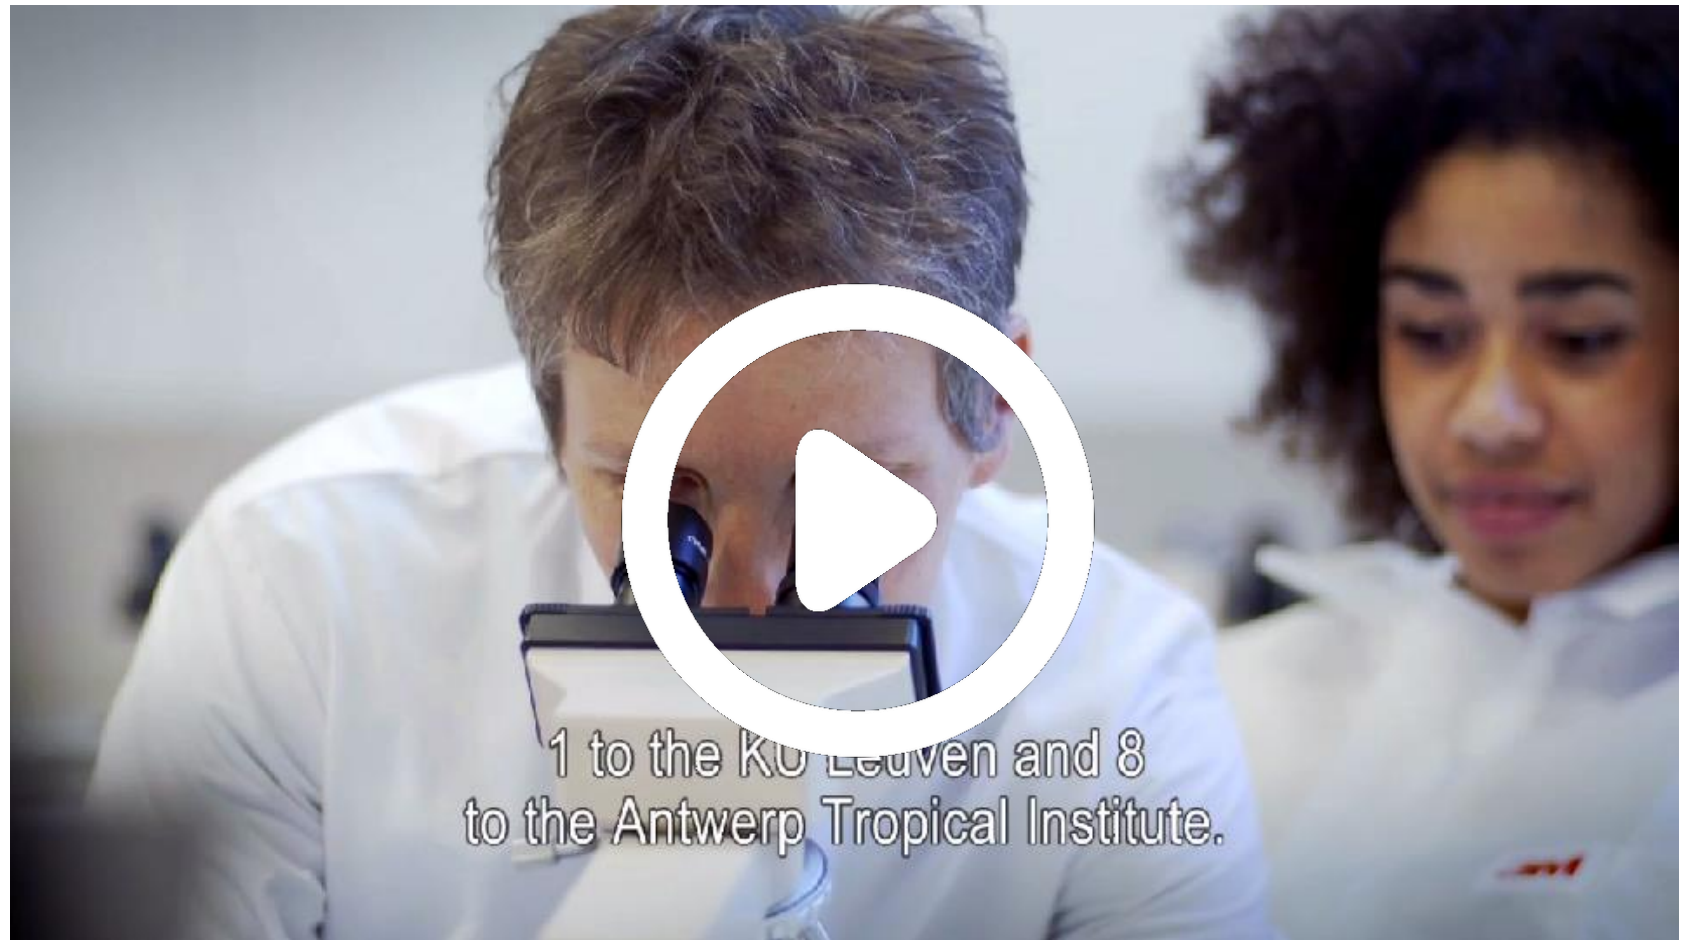

Our activities

Education

- Masters, expert short courses & PhDs
- International collaboration: Alliance
- Lifelong learning

Learn, know, do for a healthy world

Yearly student numbers

Short courses (<20c)	130-180
Postgraduate Certificates (=> 20c)	120
MSc. (60c)	60-70
PhD (240c)	>100 (20 graduates/year)
Individual training contract (stages)	50 - 70

ITM at work on ...

PROGRAMMES

Increased
flexibility and
modularity

CONTENT

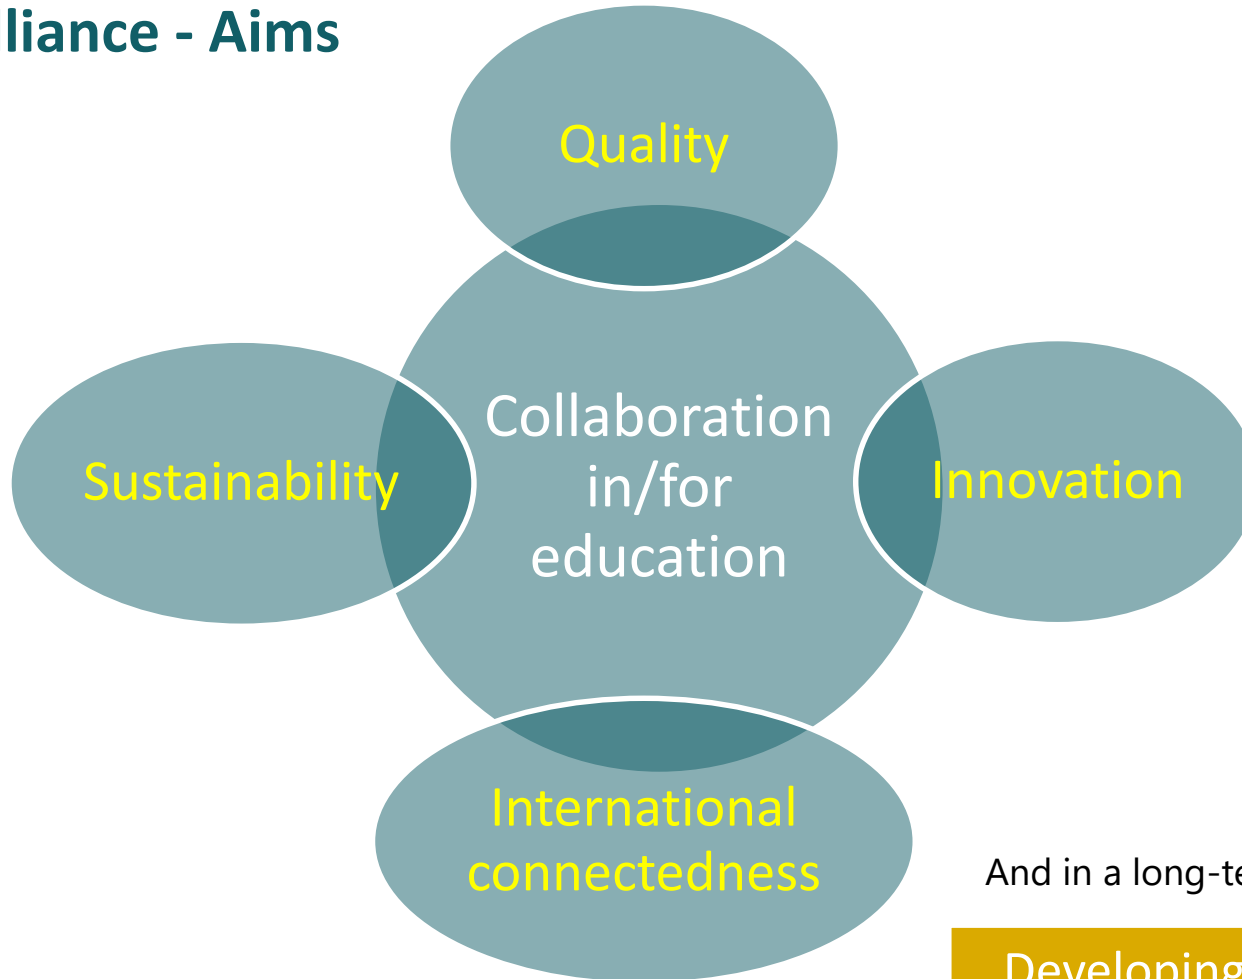

New short courses
in ITM research
niches

MANAGEMENT

International
collaboration
“Alliance for
education”

TEL
(eLearning -
blending)

Alliance - Aims

Through (e.g.)

Staff &
student
mobility

Joint
curriculum
development

Joint projects
(e.g. using
technology)

And in a long-term perspective by

Developing
new
partnerships

Building on
existing
partnerships

Some examples of 2018 Alliance initiatives

- **e-SWARM:** Development of a scientific writing course on “How to write effectively in health sciences” with 3 Asian partners
- **WikiTropica:** knowledge management platform development, Prize D4D laureate, **Erasmus+** application
- Collaboration with **tropEd partners** in an **Erasmus+ application** “Bridging the digital gap in global health education through empowerment of students and teachers”
- **One Health Workshop** (University of Pretoria)
